BLINDFOLD TRIALS

Against Steinway's, Chickering's and all Others.

We, the undersigned, make OATH, that at the time of the last Fair of the American Institute, held in New York, immediately following the French Exposition in Paris, two Pianos, made by Steinway & Sons, one Piano made by Chickening & Sons, one Patent Arion Piano made by G. C. Manner, and several other makers' instruments were tried against each other, by order and under control of the officers of the Institute, to decide which Piano on exhibition in competition should receive the First Premium "as the best Square Piano known." To obtain an impartial trial, refee all of said Pianos, were covered with papers, so that one Piano could not be distinguished from another, (during the absence of the Judges) and twice did they select one of said Pianos as the best, which, upon uncovering, both times, proved to be the said PATENT ARION PIANO, awarding it "The First Premium" over all others for being the best Square Piano known to them.

being the best Spaner Piano Known to them.

This trial was after Chickering & Sons' Piano had received the Legion of Honor and Medal roal, and Steinway & Sons the Medal from Napoleon; and the Judges of said trial were EDWARD MOLDENHAULER, Prof. of Music, Musical Director and Originator of the New York and Brooklyn Conservatories of Music.

CHARLES FRADEL, the eminent and favorite Composer and Pianiast to his Royal Highness the Due Gustave of Sax Weimer, Elsenach.

FREDERICK R. BRANDIES, Professor of Music; Teacher of the Higher School of Music, &c. &c.
